FASHION
Remember to Dress for Both Indoors and Outdoors!

- It is VERY cold outside, but sometimes very HOT inside

Solution: Layers!
- Put fitted clothes on first (leggings, tank tops, t-shirts)
- Next Add: long sleeve shirts, sweaters, cardigans, sweaters, sweatshirts, hoodies, etc.
- Tuck pants into your boots
- Look for waterproof or water resistant material
- Invest in “snow pants”
- Warm socks and gloves are a must
- Thermal tops and leggings
Clothes for the Walk to Class

* Layers, layers, layers!
* Tuck pants into your boots
* Thick, wool socks
* Look for waterproof or water resistant material
* Invest in “snow pants”
* Wear hats, gloves, and a scarf!
* Switch out gloves for mittens or “lobster”-style handwear, which keep fingers close together and warmer

**Which Winter Coat Is Right for You?**

1. **Waterproof vs. Water-Resistant**
   - Out in the rain for long periods
   - Complete weather protection
   - Snow-proof
   - Out in the rain for short periods

2. **Down vs. Synthetic**
   - More compressible
   - Super lightweight warmth
   - Durable over time
   - Warm even when wet
   - Dries quickly
   - More breathable

3. **Parka vs. Jacket**
   - Superior cold protection
   - Traps more body heat
   - Better for long periods outside
   - 3-season versatility
   - Lighter weight
   - More breathable
   - High output activities

**Other Things to Consider…**

- Temperature ratings are subjective, as everybody’s body handles cold differently.
- Where are you from? Warm or cool climate?
- Do you walk or drive more?
- Have you ever experienced a Michigan winter?
DRESSING FOR COLD WEATHER

GETTING AROUND TOWN
Walking in the Snow

Sidewalk conditions:

- Look out for ice! Slippery sidewalks are everywhere
- Walk slowly and give yourself extra time to get places
- Wear the right shoes! Boots are made for winter walking
- If you are renting a house, make sure that you read your lease and understand if you are responsible for any snow removal as a tenant. Check out Ann Arbor’s snow and ice removal laws. The city provides free salt and sand at multiple locations if needed.
Winter Transportation

Driving in the snow:

- Never run a vehicle in an enclosed area, such as a garage
- Make certain your tires are properly inflated
- Keep your gas tank at least half full
- Do not use cruise control when driving on any slippery surface (wet, ice, sand)
- Allow more stopping time and longer time for breaking
- "Pump" the brakes to stop, do not leave your foot on the brake pedal
- Use your seatbelt every time you get into your vehicle
- Always bring an ice scraper and brush
Bicycling in the snow

Road conditions:
Sand, salt, sun, and snow plows eliminate ice and snow from roads in the days after a storm.

Ride steady:
For slippery stretches, slow down and stay loose.

Brake only on the rear wheel to avoid spin-outs on slick surfaces.

Be prepared to take your feet off the pedals if the bike starts to fishtail or tilt.

Watch out
Cars are less aware of bikers in the winter. Ride defensively. Make eye contact with drivers. Add bright lights to your bicycle.

Choose the right bike
Sand, salt, and grit can destroy suspension and gears. Go with an older bike.

Store your bike outdoors - A room-temperature bike in new snow can cause ice to form on brakes and gears more easily. Also, keep your chain and gear cassette lubricated for best operation.

What to do about school/work if you are sick

❄ **DO NOT STRESS**
❄ Professors understand that sick days happen
❄ Don’t go to class if you’re sick
❄ Check the syllabus for a sickness or absence policy
❄ OR...
❄ Obtain a doctor’s note to have your absence excused
❄ Notify your boss or professor
❄ Ask a classmate for their notes
❄ Attend office hours
❄ Have a paper or project due? Consider asking for an extension
❄ Exam? Notify your professor in advance if you truly think you can’t make it
